

NOTICE OF CHANGE

DECOMMISSIONING OF THE LOCALIZER AND DISTANCE MEASURING EQUIPMENT (LOC/DME) ROBERVAL, QUEBEC

NAV CANADA, the country's provider of civil air navigation services, conducted an aeronautical study that reviewed the requirement for the localizer (LOC) and distance measuring equipment (DME) at Roberval, Quebec. The study concluded that there was no ongoing requirement for the LOC/DME and recommended they be decommissioned.

Prior to decommissioning, the LOC/DME supported instrument approach procedures (IAPs) will be replaced with localizer performance with vertical guidance (LPV) global navigation satellite system (GNSS) IAPs.

These changes will take effect on 15 August 2019 at 0901Z Coordinated Universal Time (UTC). The appropriate aeronautical publications will be amended.
