

OTTAWA/GATINEAU, QUEBEC CHANGE TO CONTROL ZONE DIMENSIONS

NAV CANADA, the country's provider of civil air navigation services, conducted an aeronautical study that evaluated the airspace and publications in Ottawa, ON and the surrounding airports. The study recommended changes to the airspace and publications for Ottawa Intl, Ottawa/Gatineau, Ottawa/Rockcliffe and Ottawa/Carp airports. These changes will be implemented over a period of time.

The first planned change is:

- Extending the Ottawa/Gatineau control zone south, to the south side of the Ottawa River, with an exclusion over the river, 700 feet AGL and below

This change will take effect April 8, 2010 at 0901 Coordinated Universal Time (UTC). The appropriate aeronautical publications will be amended.
