

AIP CANADA (ICAO) SUPPLEMENT 50/18

BUTTONVILLE CONTROL ZONE AND TORONTO TERMINAL CONTROL AREA CHANGES TORONTO, ONTARIO

(Replaces AIC 23/18)

To enhance aircraft traffic management at the Toronto Lester B. Pearson International Airport (CYYZ), the ceiling of the Buttonville control zone (CZ) will be lowered to 2,000 feet above sea level (ASL). In addition, the 2,000-foot ASL Toronto terminal control area (TCA) boundary is being expanded to encompass most of the Buttonville CZ (see map sketch below).

This change takes effect 13 September 2018, at 0901Z Coordinated Universal Time (UTC). Refer to this AIP Supplement until the amended Toronto visual flight rules (VFR) terminal area chart (VTA) (AIR 1900) is available in Spring 2019.
