

AERONAUTICAL INFORMATION CIRCULAR 18/16

DISCONTINUANCE OF THE PILOTS' AUTOMATIC TELEPHONE WEATHER ANSWERING SERVICE

NAV CANADA, the country's provider of civil air navigation services, has completed a review of the requirement for the pilots' automatic telephone weather answering service (PATWAS). The review concluded that the PATWAS was no longer required and recommended that the service be discontinued.

Pilots continue to have the option of obtaining weather information via the NAV CANADA Aviation Weather Web Site (AWWS), contacting a flight information centre (FIC), or by using the Collaborative Flight Planning System (CFPS).

This change is planned to take effect **10 November 2016 at 09:01 Coordinated Universal Time (UTC)**. The appropriate aeronautical publications will be amended.
