

AERONAUTICAL INFORMATION CIRCULAR 42/18

AVIATION WEATHER SERVICES NEW AERODROME FORECAST TORONTO/OSHAWA, ONTARIO

NAV CANADA, the country's provider of civil air navigation services, conducted an aeronautical study that will result in the closure the Toronto-Buttonville contract weather office (CWO). To mitigate the associated loss of the 24-hour aerodrome forecast (TAF) and maintain support of aircraft operations, a 24-hour TAF will be established for the Toronto/Oshawa Executive airport as follows:

Toronto/Oshawa Executive Airport (CYOO) TAF H24, issue times: 0200Z, 0800Z, 1400Z and 2000Z.

The Toronto/Oshawa TAF will be effective 03 January 2019. The appropriate aeronautical publications will be amended.
