

NOTICE OF CHANGE

Expand Class E Controlled Airspace Québec City / Jean Lesage Int'l Airport, Québec

The Montreal ACC has requested the establishment of controlled, Class E Transition Area (TA) airspace from 2,200' AGL around the Québec City /Jean Lesage Int'l airport. This additional controlled airspace will allow lower minimum vectoring altitudes to enhance the safety and efficiency of Quebec Terminal IFR operations. It also simplifies airspace structure in the affected area.

The TA airspace extends to 40NM from the Québec City /Jean Lesage Int'l airport while extending to 60NM to the southeast, as depicted in the map sketch below.

NOT FOR NAVIGATION

The establishment of this TA airspace will take effect 25 April 2019 at 0901 Coordinated Universal Time (UTC). The appropriate aeronautical publications and charts will be amended.
