

NOTICE OF CONSULTATION

THE PAS, MB Aviation Weather Observations

NAV CANADA, the country's provider of civil air navigation services is conducting an aeronautical study to determine the method for conducting aviation weather observations at The Pas. Currently weather observations are provided by a Contract Weather Office (CWO). The study will examine if the CWO can be closed with weather observations provided by an Automated Weather Observation System (AWOS).

Further information is available in the Terms of Reference (TOR) document located on the NAV CANADA web site at:

[The Pas TOR](#)

NAV CANADA will consult with customers and stakeholders on this aeronautical study during spring of 2017. For questions regarding this study please contact:
