

# NOTICE OF CHANGE

## Decommissioning of the Faro (ZFA) NDB

### Faro, Yukon

NAV CANADA, the country's provider of civil air navigation services, conducted an aeronautical study that reviewed the requirement for the non-directional beacon (NDB) at Faro, YT.

The study concluded that there was no requirement for the NDB and recommended the following:

- The Faro (ZFA) NDB be decommissioned;
- The low-frequency air-route segments BR16 Watson Lake (QH) – Faro (ZFA) – Mayo (MA) be revoked; and
- A Fixed Area Navigation (RNAV) low-level 'L' route be published between Faro and Whitehorse.

**This change will take effect October 12, 2017 at 0901 Coordinated Universal Time (UTC).**  
The appropriate aeronautical publications will be amended.
