

NOTICE OF CHANGE

Decommission the Contract Weather Office and the YSL NDB St Leonard, New Brunswick

NAV CANADA, the country's provider of civil air navigation services, conducted an aeronautical study that reviewed the part-time contract weather office, removing the aerodrome routine meteorological report (METAR) and decommissioning the YSL NDB at St. Leonard, New Brunswick. The study concluded that the contract weather office and the YSL NDB are in excess of airport requirements and therefore will be decommissioned.

This change will take effect December 07, 2017 at 0901 Coordinated Universal Time (UTC).
The appropriate aeronautical publications will be amended.
