

## **NOTICE OF CONSULTATION**

### **AVIATION WEATHER OBSERVATIONS LOURDES-DE-BLANC-SABLON, QUEBEC**

NAV CANADA, the country's provider of civil air navigation services is conducting an aeronautical study to review the method for conducting aviation weather observations at the Lourdes-de-Blanc-Sablon airport (CYBX). Currently at CYBX, 24-hour aviation weather observations (METAR/SPECI), supporting a 24-hour per day aerodrome forecast (TAF), are conducted by a Contract Weather Office (CWO).

Additional information is available in the Terms of Reference (TOR) document located on the NAV CANADA web site via the following link:

[Lourdes-de-Blanc-Sablon TOR](#)

NAV CANADA will consult with customers and stakeholders on this aeronautical study during the Fall/Winter 2018. For questions regarding this study, please contact:
