

# NOTICE OF CHANGE

## Decommissioning of the Sept-Îles (ZV) NDB

### Sept-Îles, Quebec

NAV CANADA, the country's provider of civil air navigation services, conducted an aeronautical study that reviewed the requirement for the non-directional beacon (NDB) at Sept-Îles, QC. The study concluded that there was no requirement for the NDB and recommended it be decommissioned. This will result in the following changes:

- Revoke of the NDB RWY 31 instrument approach procedure;
- Revoke of R1 LF/MF airway between Sept-Îles and the Poste Montagnais (UAC) NDB; and
- Revoke of RR5 uncontrolled air route between Sept-Îles and the Port-Menier (PN) NDB.

**These changes will take effect 29 March 2018 at 0901 Coordinated Universal Time (UTC).**  
The appropriate aeronautical publications will be amended.
