

AIP CANADA (ICAO) SUPPLEMENT 6/20

CRANE—SIDNEY, BRITISH COLUMBIA

One crane will be erected in Sidney, British Columbia. The maximum height is 114 feet above ground level (AGL) or 140 feet above sea level (ASL). The structure will be lighted and painted.

The crane will be located within a 168-foot radius centred at the following coordinates:

48° 38' 59.892" N 123° 23' 50.275" W

One crane is approximately 3,040 feet before threshold 27 and 2,190 feet north of the extended runway centre line of Victoria International Airport (CYYJ). Details of any procedure changes implemented due to this crane activity will be promulgated via NOTAM, publication amendment, or both.
