

AIP CANADA (ICAO) SUPPLEMENT 28/20

CRANE—ST-LAURENT, QUEBEC

A crane will be erected in St-Laurent, Quebec. The maximum height is 185 feet above ground level (AGL) or 287 feet above sea level (ASL). The structure will be lighted but not painted.

The crane will be located within a 250-foot radius centered at the following coordinates:

45° 30' 06" N 73° 42' 16" W

A crane is approximately 8,630 feet before threshold 24L and 3,910 feet northwest of the extended runway centre line (RCL) of Montréal/Pierre Elliott Trudeau International Airport (CYUL). Details of any procedure changes implemented due to this crane activity will be promulgated via NOTAM, publication amendment, or both.
