

AIP CANADA (ICAO) SUPPLEMENT 50/20

MULTIPLE CRANES—WINNIPEG, MANITOBA

Multiple cranes will be erected in Winnipeg, Manitoba. The maximum height is 180 feet above ground level (AGL) or 958 feet above sea level (ASL). The structures will be lighted, but not painted.

The cranes will be located within a 560-foot radius centred at the following coordinates:

49° 57' 56" N 97° 13' 51" W

The cranes are 14,820 feet before Threshold 18 and 1,230 feet west of extended runway centreline of Winnipeg/James Armstrong Richardson International Airport (CYWG). Details of any procedure changes implemented due to this crane activity will be promulgated via NOTAM, publication amendment, or both.
