

## SERVICE NOTICE

### TEMPORARY REDUCTION IN THE HOURS OF AIRPORT CONTROL SERVICE AT THE WINDSOR INTERNATIONAL AIRPORT (CYQG)

NAV CANADA, the country's provider of civil air navigation services, conducted an assessment of the Air Traffic Service (ATS) and staff availability at the Windsor International Airport. It was determined that due to staffing limitations and to maintain the consistent availability of the service, the tower at the Windsor International Airport should operate at reduced hours.

The hours of the tower will be reduced temporarily to 12 hours per day. The tower will operate from 1330Z to 0130Z (1230Z to 0030Z during daylight savings) daily. Outside of these hours a Mandatory Frequency (MF) will be in effect and the airport will operate as it typically does outside of the tower's normal hours.

The requirement for this temporary change will be monitored regularly based on the evolving situation.

This change will take effect on **30 November 2020**. NOTAMs will be posted for the duration of this change.
