

AERONAUTICAL INFORMATION CIRCULAR 010/2026

ADJUSTED TIMELINES FOR THE 2027 CANADIAN WATER AERODROME SUPPLEMENT

Purpose

The purpose of this circular is to inform the customers, users, and data originators of changes to timelines related to the 2027 edition of the Canadian Water Aerodrome Supplement (CWAS). These changes in timelines are only applicable to the 2027 edition of the CWAS.

Background

NAV CANADA is undertaking significant investment to modernize the systems used in its Aeronautical Information Management department. NAV CANADA's current aeronautical data management technology is approaching end of life and is scheduled for replacement later in 2026.

Implementation

To maximize the production capacity during the technology transition, the timelines for the 2027 edition of the CWAS will be adjusted so that it will be published ahead of the technology transition. Details and deadlines for the 2027 CWAS are as follows:

Next CWAS publication date: 18 February 2027

Submission deadlines:

New aerodromes: 1 October 2026

Data amendments: 1 November 2026

Submit all CWAS changes and questions relating to publication deadlines to aisdata@navcanada.ca.
