

AERONAUTICAL INFORMATION CIRCULAR 13/22

NAVIAR DELAYS DECOMMISSIONING VHF FREQUENCY AT SIMIUTAQ, GREENLAND

NAVIAR informed NAV CANADA of plans to make changes to Greenland (Gnld) site with respect to VHF frequencies.

Effective 0901Z 19 May 2022, the following information, previously published in AIRAC Issue 12 on 17 March 2022, was removed from NAV CANADA's publications.

A. COMMUNICATIONS

GANDER RADIO RCO

Delete: Simiutaq 134.47

At a customer's request, NAV CANADA has coordinated with NAVIAR to delay the decommissioning of VHF frequency 134.475 at Simiutaq, Gnld.

Therefore, this frequency will remain active until 29 December 2022 at which point the frequency decommission will have been completed.
