

AIP CANADA SUPPLEMENT 27/21

KELOWNA, BRITISH COLUMBIA (CYLW): TEMPORARY PARKING AREAS

The scope and potential impacts of construction projects to be carried out at Kelowna, British Columbia (CYLW) International Airport from **June 2021 to August 2021** are outlined below.

Since all activities are subject to operational requirements and construction schedules, actual dates and times of construction activities will be promulgated through NOTAM.

Due to rehabilitation work on Taxiway DELTA, parking for locally based aircraft (GA Parking Area between **Item 4** and **Item H**, as shown in Figure 1 on the following page) will not be accessible during the work periods.

Aircraft are to use the new temporary **Taxiway GOLF** to access new parking area “**Temporary General Aviation Parking (Private)**,” shown in Figure 1 as **Item 10**. This temporary taxiway will be opened late May 2021 to facilitate the Taxiway DELTA closure and will be deactivated mid-July 2021.

Due to no installed lighting, **Taxiway GOLF** is restricted to “**day use only**,” is paved and rated for **AGN I** (aircraft group number I).
