

AIP CANADA SUPPLEMENT 44/21

CRANE—OSHAWA, ONTARIO

(Replaces AIP Canada Supplement 1/21)

A luffing crane will be erected in Oshawa, Ontario. The maximum height is 347 feet above ground level (AGL) or 712 feet above sea level (ASL). The structure will be lighted but not painted.

The crane will be located within a 164-foot radius, centred at the following coordinates:

43° 53' 59" N 78° 51' 39" W

The crane is approximately 9,560 feet before Threshold 30 and 4,340 feet southwest (SW) of extended runway centreline at Oshawa Executive Airport (CYOO). Details of any procedure changes implemented due to this crane activity will be promulgated via NOTAM, publication amendment, or both.
