Notes to Interim Condensed Consolidated Financial Statements (unaudited)

Three months ended November 30, 2023 and 2022 (millions of Canadian dollars)

1. General Information

NAV CANADA was incorporated as a non-share capital corporation pursuant to Part II of the Canada Corporations Act to acquire, own, manage, operate, maintain and develop the Canadian civil air navigation system (the ANS), as defined in the Civil Air Navigation Services Commercialization Act (the ANS Act). NAV CANADA has been continued under the Canada Not-for-profit Corporations Act. The fundamental principles governing the mandate conferred on NAV CANADA by the ANS Act include the right to provide civil air navigation services and the exclusive ability to set and collect customer service charges for such services. NAV CANADA and its subsidiaries' (collectively, the Company) core business is to provide air navigation services, which is the Company's only reportable segment. The Company's air navigation services are provided primarily within Canada.

The charges for civil air navigation services provided by the Company are subject to the economic regulatory framework set out in the ANS Act. The ANS Act provides that the Company may establish new charges and amend existing charges for its services. In establishing new charges or revising existing charges, the Company must follow the charging principles set out in the ANS Act. These principles prescribe that, among other things, charges must not be set at levels which, based on reasonable and prudent projections, would generate revenue exceeding the Company's current and future financial requirements in relation to the provision of civil air navigation services. Pursuant to these principles, the Board of Directors of the Company (the Board), acting as rate regulator, approves the amount and timing of changes to customer service charges.

The Company plans its operations to result in an annual financial breakeven position on the consolidated statements of operations after recording adjustments to the rate stabilization account. As a result, the Company expects no net change in retained earnings on an annual basis. The impacts of rate regulation on the Company's interim condensed consolidated financial statements (the financial statements) are described in note 4.

The ANS Act requires that the Company communicate proposed new or revised charges to customers in advance of their introduction and to consult thereon. Customers may make representations to the Company as well as appeal revised charges to the Canadian Transportation Agency on the grounds that the Company either breached the charging principles in the ANS Act or failed to provide statutory notice.

NAV CANADA is domiciled in Canada. The address of NAV CANADA's registered office is 151 Slater Street, Ottawa, Ontario, Canada K1P 5H3.

2. Basis of presentation

(a) Statement of compliance

These financial statements have been prepared in accordance with International Accounting Standards (IAS) 34 *Interim Financial Reporting*. As permitted under this standard, these financial statements do not include all of the disclosures required for annual consolidated financial statements prepared in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board (IASB) and should be read in conjunction with the Company's audited annual consolidated financial statements for the year ended August 31, 2023 (2023 annual financial statements).

These financial statements include the accounts of all NAV CANADA subsidiaries and were authorized for issue by the Board on January 10, 2024.

(b) Basis of measurement

These financial statements have been prepared on the historical cost basis except for the following items:

- financial instruments that are classified as fair value through profit or loss (FVTPL), which are measured at fair value; and
- defined benefit liabilities that are recognized as the net of the present value of defined benefit obligations and plan assets measured at fair value.

Notes to Interim Condensed Consolidated Financial Statements (unaudited)

Three months ended November 30, 2023 and 2022 (millions of Canadian dollars)

2. Basis of presentation (continued)

(c) Functional and reporting currency

These financial statements are presented in Canadian dollars (CDN), which is the Company's functional and reporting currency and all information presented has been rounded to the nearest million dollars, unless otherwise indicated.

(d) Seasonality

The Company's operations have historically varied throughout the fiscal year, with the highest revenue from air traffic experienced in the fourth quarter (June to August). This demand pattern is principally a result of the higher number of leisure travellers and their preference for travel in the summer months. The Company has a cost structure that is largely fixed, and accordingly costs do not vary significantly throughout the year.

(e) Accounting policies

The accounting policies applied in these financial statements are disclosed in note 3 of the 2023 annual financial statements and have been applied consistently to all periods presented.

(f) New standards, amendments and interpretations adopted

The following amendments were adopted by the Company effective September 1, 2023.

IAS 1 Disclosure of Accounting Policies

In February 2021, the IASB issued Disclosure of Accounting Policies (Amendments to IAS 1 and IFRS Practice Statement 2) with amendments that are intended to help preparers in deciding which accounting policies to disclose in their financial statements. Changes to the Company's disclosure of accounting policies will be reflected in the annual financial statements for the fiscal year ending August 31, 2024 (fiscal 2024).

IAS 8 Definition of Accounting Estimates

In February 2021, the IASB amended IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors to introduce a new definition of "accounting estimates" to replace the definition of "change in accounting estimates" and include clarifications intended to help entities distinguish changes in accounting policies from changes in accounting estimates. This distinction is important because changes in accounting policies must be applied retrospectively while changes in accounting estimates are accounted for prospectively. The Company adopted the amendment effective September 1, 2023 and determined that it had no impact on the Company's financial statements.

(g) Critical accounting estimates and judgments

The preparation of these financial statements requires management to make estimates and judgments about the future.

Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Accounting estimates will, by definition, seldom equal actual results.

Critical judgments and key sources of estimation uncertainty are disclosed in note 2 (d) of the 2023 annual financial statements.

Notes to Interim Condensed Consolidated Financial Statements (unaudited)

Three months ended November 30, 2023 and 2022 (millions of Canadian dollars)

3. Revenue

Customer service charges by type of air navigation service provided were as follows:

Three months ended November 30	2023	2022
Enroute (1)	\$ 230	\$ 212
Terminal (2)	178	164
Daily / annual / quarterly (3)	13	17
North Atlantic and international communication (4)	 32	 29
	\$ 453	\$ 422

- (1) Charges related to air navigation services provided or made available to aircraft during the enroute phase of the flight, whether they overfly Canadian-controlled airspace or take-off and/or land in Canada. This performance obligation is satisfied at a point in time.
- ⁽²⁾ Charges related to air navigation services provided or made available to aircraft at or in the vicinity of an airport. This performance obligation is satisfied at a point in time.
- (3) Charges related to enroute and terminal air navigation services. These charges generally apply to propeller aircraft and the performance obligations are satisfied over the period in which air navigation services are made available.
- (4) Charges related to certain air navigation and communication services provided or made available to aircraft while in airspace over the North Atlantic Ocean. These services are provided outside of Canadian sovereign airspace but for which Canada has air traffic control responsibility pursuant to international agreements. The international communication charges also include services provided or made available while in Canadian airspace in the north. These performance obligations are satisfied at a point in time.

The Company revised its customer service charges effective January 1, 2024, decreasing overall service charges by an average of 5.57%.

4. Financial statement impact of regulatory accounting

(a) Regulatory deferral accounts

In accordance with disclosures required for entities subject to rate regulation, the Company's regulatory deferral account balances are as follows:

	Αι	ıgust 31		F	Recovery/	Nov	ember 30
		2023	Deferral		reversal		2023
Rate stabilization account (b) Employee pension benefits:	\$	342	\$ -	\$	(57)	\$	285
Pension contributions (c) Other pension benefits:		679	12		-		691
Accumulating sick leave		16	-		-		16
Supplemental pension re-measurements		55	-		(1)		54
Realized hedging transactions		63	-		-		63
Leases		1	1		-		2
Decommissioning liability		1	-		-		1
Allowance for expected credit losses		5	-		-		5
Cloud computing arrangements		51	2		(1)		52
Debit balances	\$	1,213	\$ 15	\$	(59)	\$	1,169
Derivatives	\$	(1)	\$ -	\$	-	\$	(1)
Employee pension benefits: Pension re-measurements Other pension benefits:		(269)	-		-		(269)
Other post-employment benefits re-measurements		(49)	-		-		(49)
Long-term disability contributions		(4)	-		-		(4)
Change in the fair value of the investment in preferred interests		(38)	 (1)		_		(39)
Credit balances	\$	(361)	\$ (1)	\$	-	\$	(362)

4. Financial statement impact of regulatory accounting (continued)

(a) Regulatory deferral accounts (continued)

The table below shows the impact of rate stabilization adjustments and net movement in regulatory deferral accounts on net income (loss):

Three months ended November 30	2023	2022
Revenue	\$ 464	\$ 435
Operating expenses	381	348
Other (income) and expenses	17	26
Net income, before net movement		
in regulatory deferral accounts	66	61
Rate stabilization adjustments (b)	(57)	(78)
Other regulatory deferral account adjustments:		
Employee benefit pension contributions	12	12
Other employee benefits	(1)	(1)
Investment in preferred interests	(1)	(5)
Other	 2	 1_
	 12	 7
Net movement in regulatory deferral accounts	(45)	(71)
Net income (loss), after net movement		
in regulatory deferral accounts	\$ 21	\$ (10)

(b) Rate stabilization account

The rate stabilization account balance is comprised of operating deferrals. Should actual revenue exceed the Company's actual expenses, such excess is reflected as a credit to the rate stabilization account. Conversely, should actual revenue be less than actual expenses, such shortfall is reflected as a debit to the rate stabilization account. A credit balance in the rate stabilization account represents amounts returnable through reductions in future customer service charges, while a debit balance represents amounts recoverable through future customer service charges.

When establishing customer service charges, the Board considers, among other things:

- (i) the statutory requirement to provide air navigation services;
- (ii) air traffic results and forecasts;
- (iii) financial and operating requirements, including the current and anticipated balance in the rate stabilization account and the extent to which operating costs are variable and can be contained;
- (iv) the recovery of pension contributions on a cash basis; and
- (v) updates to our financial forecasts, debt servicing and financial requirements, and resulting financial coverage ratios.

4. Financial statement impact of regulatory accounting (continued)

(b) Rate stabilization account (continued)

The table below shows the net movements in the rate stabilization account:

Three months ended November 30	2023	2022
Debit balance, beginning of period	\$ (342)	\$ (574)
Variances from planned results:		
Revenue higher than planned	12	39
Operating expenses lower than planned	19	18
Other (income) and expenses lower (higher) than planned	5	(3)
Net movement in other regulatory deferral accounts	 (5)	 (8)
Total variances from planned results	31	46
Initial approved adjustment (1)	 26	 32
Net movement recorded in net income (loss)	 57	 78
Debit balance, end of period	\$ (285)	\$ (496)

⁽¹⁾ In order to achieve breakeven results of operations after the application of rate regulated accounting, the Board approved the fiscal 2024 budget with a decrease to the debit position of the rate stabilization account as a result of a planned excess of \$102 (fiscal year ended August 31, 2023 - \$129), which is being reflected in the rate stabilization account evenly throughout the fiscal year.

(c) Pension contributions

Included in regulatory deferral account debit balances as at November 30, 2023 is \$691 related to the recovery of pension contributions through customer service charges (August 31, 2023 - \$679). After regulatory accounting, the pension benefit liability on the statement of financial position is:

	No	vember 30 2023	August 31 2023
Pension benefit liability	\$	(388)	\$ (376)
Less:			
Regulatory deferrals of non-cash adjustments		(269)	(269)
Benefit contributions less than benefit expense	'	(657)	 (645)
Regulatory debit balance - recovery of contributions		691	679
Regulatory expense cumulatively less than contributions	\$	34	\$ 34

The Company uses a regulatory approach to determine the net charge to net income (loss) for pension benefit costs for its funded plan. The objective of this approach is to reflect the cash cost of the funded pension plan in net income (loss) by recording an adjustment to the related regulatory deferral account. These regulatory adjustments are the difference between the pension benefit costs as determined by IAS 19 *Employee Benefits* and the annual going concern cash cost of the plan. Included in the regulatory deferral related to pension contributions of \$691, is the recovery of \$10 of solvency deficiency contributions of \$44 paid in the fiscal year ended August 31, 2017. The remaining balance of \$34 is expected to be recovered through customer service charges.

4. Financial statement impact of regulatory accounting (continued)

(c) Pension contributions (continued)

The funding of employee pension benefits as compared to the expense, net of regulatory adjustments, recorded in the consolidated statements of operations is summarized below.

Three months ended November 30	2023	2022
Consolidated statements of operations		
Pension current service expense (1)	\$ 28	\$ 28
Net interest expense (1)	4	6
Less: Regulatory deferrals	(12)	(12)
	\$ 20	\$ 22
Company cash pension contributions	 	
Going concern current service - cash payment	\$ 23	\$ 25
Going concern current service - accrued	(3)	(3)
	\$ 20	\$ 22

⁽¹⁾ For the three months ended November 30, 2023, pension current service expense does not include \$1 related to the Company's unfunded pension plan (three months ended November 30, 2022 - \$1) and net interest expense does not include \$2 related to the Company's unfunded pension plan (three months ended November 30, 2022 - \$1).

5. Property, plant and equipment

Property, plant and equipment are comprised of the following:

	Land and buildings	Systems and equipment	Asse deve	Total __			
Cost							
Balance at August 31, 2023	\$	461	\$ 815	\$	160	\$	1,436

⁽¹⁾ Additions to assets under development are shown net of \$2 (November 30, 2022 - \$1) related to government funding under the NTCF.

7. Financial instruments and financial risk management

Summary of financial instruments

The following table presents the carrying amount of the Company's financial instruments, by classification category and includes the fair value hierarchy classification for each financial instrument as defined in note 16 of the 2023 annual financial statements. Excluding long-term debt, the carrying amount approximates the fair value of all of the Company's financial instruments.

Notes to Interim Condensed Consolidated Financial Statements (unaudited)

Three months ended November 30, 2023 and 2022 (millions of Canadian dollars)

7. Financial instruments and financial risk management (continued)

Summary of financial instruments (continued)

- (1) Short-term investments consist of Bearer Deposit Notes with an original maturity of more than three months from date of purchase.
- Derivative assets and liabilities are recorded at fair value determined using prevailing foreign exchange market rates and interest rates at the reporting date.
- (3) This instrument is recorded at fair value based on the valuation technique described in note 12 of the 2023 annual financial statements. The increase in the carrying value as at November 30, 2023 is as a result of the effect of foreign exchange and is included in Other (within Other (income) and expenses) on the consolidated statements of operations.
 - The nature of Aireon LLC's (Aireon) business makes its long-term operating plan sensitive to the achievement of management's revenue growth forecast, the risk of which is reflected in the discount rate critical assumption of the valuation. A 1% increase in the discount rate would result in a \$23 CDN decrease in fair value and a 1% reduction in the discount rate would result in a \$27 CDN increase in fair value.
- (4) Long-term receivables include \$46 of deferred payments related to the September 1, 2020 customer service charge increase as described in note 16 (b) of the 2023 annual financial statements (August 31, 2023 \$53), which are presented net of an estimated credit loss provision of \$3 (August 31, 2023 \$4).
- (5) The fair value of the Company's bonds and notes payable is classified as Level 2 in the fair value hierarchy as it is determined using secondary market ask prices at the reporting date. As at November 30, 2023, the fair value was \$2,074 (August 31, 2023 \$2,045), inclusive of accrued interest of \$18 (August 31, 2023 \$22).

There have been no transfers between levels of the fair value hierarchy since August 31, 2023.

Financial risk management

The Company is exposed to several risks as a result of holding financial instruments, including interest rate risk, foreign exchange risk, price risk, credit risk and liquidity risk. The Company's exposure to financial risks and how the Company manages each of those risks are described in note 16 (a)-(c) of the 2023 annual financial statements. There were no significant changes to those risks or to the Company's management of exposure to those risks during the three months ended November 30, 2023, except as noted below.

Liquidity risk

Separate from the Company's syndicated credit facility are letter of credit facilities for pension obligations of \$860 as at November 30, 2023 (August 31, 2023 - \$860). During the three months ended November 30, 2023, all four credit facilities were extended, whereby \$450 will mature on December 31, 2024 and \$410 will mature on December 31, 2025, unless extended. As at November 30, 2023, \$766 was drawn for solvency funding (August 31, 2023 - \$751) for the registered pension plan and \$38 for supplemental retirement arrangements (August 31, 2023 - \$38).

Notes to Interim Condensed Consolidated Financial Statements (unaudited)

Three months ended November 30, 2023 and 2022 (millions of Canadian dollars)

8. Commitments

The following table presents a maturity analysis of the Company's undiscounted contractual cash flows for its financial liabilities, capital commitments, lease liabilities and other commitments as at November 30, 2023:

	Remaining payments – for years ending August 31											
	Total		2024		2025		2026		2027	2028	Thereafte	
Trade payables and accrued												
liabilities	\$ 243	\$	243	\$	-	\$	-	\$	-	\$ -	\$	-
Long-term debt (including												
current portion) (1), (2)	2,365		201		16		301		222	-		1,625
Interest payments (2)	1,205		48		70		67		65	48		907
Capital commitments (3)	180		90		48		20		7	5		10
Lease liability	56		2		3		3		3	3		42
Related party loan (4)	-		-		-		-		-	-		-
	\$ 4,049	\$	584	\$	137	\$	391	\$	297	\$ 56	\$	2,584

- (1) Payments represent principal of \$2,365. The Company may choose to repay a portion of these maturities with available cash and/or may increase the size of a re-financing to generate additional liquidity or for other purposes, and/or may choose to redeem in whole or in part an issue in advance of its scheduled maturity.
- ⁽²⁾ Further details on interest rates and maturity dates on long-term debt are provided in note 13 of the 2023 annual financial statements.
- (3) The Company has commitments for the acquisition of property, plant and equipment and intangible assets amounting to \$180 as at November 30, 2023 (August 31, 2023 \$151).
- (4) During the three months ended November 30, 2023, the Company's agreement with Aireon to provide a subordinated loan was terminated along with the termination of the senior credit facility. As a condition of a new senior credit facility, subsequent to November 30, 2023, the Company finalized a new agreement with Aireon to provide a subordinated loan up to a total of \$15 CDN (\$11 U.S.) through the earlier of October 10, 2028 or the date on which the senior credit facility is paid in full and terminated or refinanced.
